Revision 663572c4 - 2013-09-29 20:52 - Frans Saris

[FEATURE] Implement date time editor

The current jQuery UI datepicker is replaced by a more

lightweight version with time picking support.

The datetimepicker uses a 'shadow field' so internal

storage of the date is done in an internal format

(US for now), and displaying is done in a format

which could be user specific.
