Revision 400160b6 - 2013-07-24 14:59 - Aske Ertmann

[!!!][FEATURE] Restrict access to specific modules

Additionally adds a version parameter to the menu controller request, to ensure that changes in roles will update the accessible modules accordingly.

This is breaking since it's no longer possible to use the standard module controller if no controller is specified. This is done to be able to enforce restrictions on overview modules with resource policies.
