Mh.. it's fixed in master: <http://docs.typo3.org/flow/TYPO3FlowDocumentation/latest/TheDefinitiveGuide/PartV/CodingGuideLines/PHP.html>
and should have been fixed with <https://review.typo3.org/#/c/23099/> for 2.0

@Karsten could you check this?

#6 - 2014-01-09 15:45 - Xavier Perseguers

The PDF is fine now, so it seems the rendering did not take place (you should always check the rendering date on <http://docs.typo3.org/flow/TYPO3FlowDocumentation/latest/Index.html>) and as such your change was not "visible".

It is for latest - but not for 2.0 / stable, even though it should be fixed. **That** is what is puzzling me.

The links are working correctly currently: In the current stable version as well as in 2.0 and 2.1.
