Updated:	2013-08-01	Due date:	
Subject:	Avoid using header tags in Neos backend		
Description	We should avoid using header tags like h1, h2, h3, h4, h5, h6 in our backend since they usually have specific styling and the semantic meaning doesn't make much sense in the backend anyway (JS part)

[TASK] Avoid using header tags in JavaScript backend

This is done to prevent having to reset all css properties for header tags, since they're often styled explicitly.
