

TYPO3.TYPO3CR - Feature # 50

Status:	Closed	Priority:	Should have
Author:	pnie -	Category:	
Created:	2007-04-26	Assigned To:	
Updated:	2011-05-05	Due date:	
Subject:	Documentation: watch that no mismatching .jar files are on java classpath		
Description			
<p>The php-java-bridge (pjb) used the java classpath (in my case '/usr/share/java/ext/') first when initialising any of the java classes.</p> <p>If any of the needed java classes reside there (for example derby* or jackrabbit*) and are not in the correct and required version TYPO3/Unit Tests of 5.0 might fail.</p> <p>A note that the java libraries must not be available in the java environment in any wrong version should be added in the installation guide/docs.</p>			

History

#1 - 2007-04-26 19:31 - pnie -

---- this was the error message: -----

phpCRJackrabbit/Classes/T3P_phpCRJackrabbit_Repository.php:173

```
<br>javax.jcr.RepositoryException:  
org.apache.lucene.store.FSIndexOutput:  
org.apache.lucene.store.FSIndexOutput:  
org.apache.lucene.store.FSIndexOutput<br>
```
