TYPO3.Flow - Feature # 502

Status:	Resolved	**Priority:**	Should have
Author:	Karsten Dambekalns	**Category:**	Error
Created:	2008-05-09	**Assigned To:**	Karsten Dambekalns
Updated:	2010-10-20	**Due date:**	
PHP Version:			
Has patch:			
Complexity:			
Subject:	Make error message from exception handler in production mode more user-friendly		
Description			

The simple "500 internal server error" is misleading, this should be better-looking and at least reveal that the error is caused/raised by FLOW3, and not Apache or some other system-level cause.

Associated revisions

Revision bebe1e19 - 2008-05-10 21:39 - Karsten Dambekalns

The ProductionExceptionHandler now looks nicer and tells the error is coming from FLOW3. Fixes #502.

Note that for MSIE < 8 the error screen doesn't have any graphics, as we cannot use inline graphics (data URL) in that case.
