Subject:	Styling of input appended input fields		

Description

Seems that a lot of styles based on twitter bootstrap.

would be great to get this styling worked:

<div class="input-append">

  <f:form.textfield property="price.value" id="price"/>

  €

</div>

Kind regards

Hi

This rather sounds like some configuration issue than a bug.

If you need some help regarding the configuration discuss in the forum: http://forum.typo3.org/index.php/f/121/

We're cleaning up Forge now and moving to Jira. If you want to create a new feature please to this there: https://jira.typo3.org/
