

TYPO3.Flow - Task # 50382

Task # 51183 (New): CLI improvements

Status:	New	Priority:	Should have
Author:	Karsten Dambekalns	Category:	Command
Created:	2013-07-24	Assigned To:	
Updated:	2013-08-19	Due date:	
Sprint:			
PHP Version:			
Has patch:	No		
Complexity:			
Subject:	Impossible to use arguments in CLI that are added by overriding initializeCommandMethodArguments()		
Description	<p>Having something like</p> <pre>/** * @return void * @throws \TYPO3\Flow\Mvc\Exception\InvalidArgumentTypeException */ protected function initializeCommandMethodArguments() { parent::initializeCommandMethodArguments(); \$this->arguments->addNewArgument('porcelain', 'boolean', FALSE, FALSE); }</pre> <p>should provide the porcelain option to all command methods. But since the CLI request never returns true for hasArgument(), since parseRawCommandLineArguments() uses the ReflectionService and thus will never consider the --porcelain flag if given on the command line.</p>
