

## TYPO3.Surf - Bug # 50554

<b>Status:</b>	New	<b>Priority:</b>	Should have
<b>Author:</b>	Martin Ficzel	<b>Category:</b>	
<b>Created:</b>	2013-07-30	<b>Assigned To:</b>	Martin Ficzel
<b>Updated:</b>	2013-08-05	<b>Due date:</b>	
<b>Subject:</b>	CopyConfigurationTask does not use the node-option "password"		
<b>Description</b>			
The CopyConfigurationTask uses the configured username but not the password for copying the files to the node via scp. Since other tasks use the password-option this should be supported here aswell.

The problem can be solved in a better way with the exchanging of ssh-keys. Since there is no good way to pass a password to the internally used scp command i cannot see a good clean solution for that.

I suggest to close this ticket.
