Subject:	workflow->removeTask does not work any more and is destroying the array structure		
Description			
<p>Since commit 2b7d957eaf77acdde4028cd965822545b2853b0 the removeTask methods does destroy the structure of its internal taks-array. The reason is a misordering in the task-array addressing in the mentioned commit.</p> <p>The line 61 should be altered like this:</p> <pre>+ \$this->tasks['stage'][\$applicationName][\$stageName][\$step] = array_filter(\$tasks, function(\$task) use (\$removeTask) { return \$task !== \$removeTask; }); - \$this->tasks['stage'][\$applicationName][\$step][\$stageName] = array_filter(\$tasks, function(\$task) use (\$removeTask) { return \$task !== \$removeTask; });</pre>

[BUGFIX] Fixed the workflow->removeTask method

After commit 2b7d957eaf77acdde4028cd965822545b2853b0 the method destroyed the internal tasks-array instead of doing anything.
