Subject:	Make FileExtensionFilter case insensitive		
Description			
<p>At the moment the \TYPO3\CMS\Core\Resource\FILTER\FileExtensionFilter will not find any files if the allowed extensions are uppercase and the files in the directory have lowercase extensions.</p> <p>This is a real problem because the \TYPO3\CMS\Backend\Form\FormEngin::getSingleField_typeGroup() method converts all configured allowed extensions to uppercase.</p>

[BUGFIX] Ignore case in file extension filter

This patch makes the FileExtensionFilter case insensitive.

If the filter is configured to allow files with the ".EXT" extension it will now also allow files with an ".ext" extension.

Additionally the order of a data provider method in the FileExtensionFilterTest has been corrected.

Resolves: #50568

Releases: 6.2, 6.1, 6.0
