Is Regression:	No
Sprint Focus:	

Subject:	Fatal error while adding files to tt_content

Description
I simply just tried to work with textpic as an editor - adding multible images to an element using Chrome browser...... and suddenly this error occurs in my filelist module and I have no idea on how it happend and how I can get rid of it: Oops, an error occurred! No file found for given UID. More information regarding this error might be available online. Please see attachement :-)
