Hi,

this patch looks good to me. We're using something similar to exclude files and folders from rsync.

There is just one little thing, which should be changed imho:

```
$excludeFlags[] = '--exclude \'' . escapeshellarg($exclude) . '\'';
```

escapeshellarg automatically adds quotes, so there is no need for the extra \''

It'd be great to have this very useful patch integrated.

Kind regards

Andreas
