Subject: concept for product website

Description

Create a concept for a TYPO3 Surf product website and plan/coordinate the implementation.

- Target groups * technical decision makers * developers * IT operation
- Create product page on typo3.org together with design / marketing team
- Use GitHub Pages for website recipes
- create a new github organisation --> already done: <https://github.com/organizations/TYPO3-Surf>
- Use typo3.org templates (optionally redo in Bootstrap)

- Graphics
- Surf Logo
- Hero image?
- Animated diagram of Surf automated deployment process (Development, CI, Deployment)
- Show simple example / deployment configuration below diagram
- TODO Scribble mockup of frontpage
