

## TYPO3.Flow - Bug # 50869

<b>Status:</b>	New	<b>Priority:</b>	Could have
<b>Author:</b>	Jordy de Jong	<b>Category:</b>	
<b>Created:</b>	2013-08-07	<b>Assigned To:</b>	
<b>Updated:</b>	2013-08-07	<b>Due date:</b>	
<b>PHP Version:</b>			
<b>Has patch:</b>	No		
<b>Complexity:</b>			
<b>Affected Flow version:</b> Flow 2.0.0			
<b>Subject:</b>	key() invoked on object		
<b>Description</b>			
TYPO3\Flow\Package\Package:			
....			
<code>\$namespaces = \$manifest-&gt;autoload-&gt;{'psr-0'};</code>			
....			
<code>if (count(\$namespaces) === 1) {</code>			
<code>    \$namespace = key(\$namespaces);</code>			
<code>}</code>			
....			
key() should be called using an array as its parameter, \$namespaces is a stdClass			
<a href="http://www.php.net/key">http://www.php.net/key</a>			
I propose casting the result of the autoload method to an array before calling key()
