TYPO3.Flow - Feature # 50901

Status:	New	**Priority:**	Should have
Author:	Adrian Föder	**Category:**	Validation
Created:	2013-08-08	**Assigned To:**	
Updated:	2014-02-21	**Due date:**	
PHP Version:			
Has patch:	No		
Complexity:			
Subject:	@IgnoreValidation also for class fields		
Description			

the IgnoreValidation annotation should be able to be set on class fields, too.

That might especially make sense to "stop" the iteration through an object network if that is unwanted, for example when there are multiple possible paths to a same object, and the developer wants to affect the path to get a reliable propertyPath result.
