[TASK] Adapt skinning extension stylesheet paths

In order to clean up EXT: t3skin the standard paths should be adapted to follow extbase/fluid conventions.

Revision f44d074c - 2013-09-12 15:03 - Christian Kuhn

[BUGFIX] Install tool shows docheader in backend

Install tool should show a document header if called in backend. It includes some .css files from t3skin to do that. Those files were moved around in issue #51134, not adapted in install tool, resulting in 404 and missing document header. The patch adapts templates to include files at new locations.
