TYPO3 Flow Base Distribution - Task # 51187

Task # 51183 (New): CLI improvements

Status:	Closed	**Priority:**	Should have
Author:	Christopher Hlubek	**Category:**

Updated:	2013-08-19	**Due date:**	
Subject:	Add generic help switch for all commands		
Description			

Right now the help for a command can be displayed with ./flow help routing:list

It would be convenient to get the help of a command also with a switch "--help" after specifying the command:

    ./flow routing:list --help

If the command declares a help argument the help should be handled by the command (this will be backwards compatible for most commands).
