Core - Bug # 51363

Status:	Closed	**Priority:**	Should have
Author:	Peter Beernink	**Category:**	Install Tool
Created:	2013-08-26	**Assigned To:**	Mathias Schreiber
Updated:	2015-03-03	**Due date:**	

TYPO3 Version:	6.2
PHP Version:	
Complexity:	
Is Regression:	No
Sprint Focus:	
Subject:	Error messages in update wizard are html escaped

Description

When the update wizard gives an error, the error is escaped, causing the message to be wrapped in <p> tags.

See attached screenshot for an example

- Status changed from New to Needs Feedback

- Assigned To set to Mathias Schreiber

- Is Regression set to No

Well, I have a problem now, because the updates are so stable can't trigger an error.

Do you have steps to reproduce?

#2 - 2015-01-19 10:31 - Peter Beernink

I'll have to check if I can reproduce this.

As this environment is already upgraded in the meantime, I'll have to see if I can create an environment which simulate the behavior I noticed.

I'll let you know when I know more.

#3 - 2015-03-03 10:06 - Peter Beernink

I haven't been able to reproduce the issue.

So I think the issue can be closed.

#4 - 2015-03-03 10:07 - Peter Beernink

I haven't been able to reproduce the issue.

So I think the issue can be closed.
