TYPO3.Flow - Feature # 51405

Task # 55953 (New): Repair and streamline ValueObject support

Status:	Rejected	**Priority:**	Could have
Author:	Adrian Föder	**Category:**	Persistence
Created:	2013-08-27	**Assigned To:**	Adrian Föder
Updated:	2015-02-12	**Due date:**	

PHP Version:		
Has patch:	No	
Complexity:		
Subject:	Fix OneTo* associations from ValueObjects	

Description

ValueObjects are reusable (or reused) from a relational database point of view, i.e. they have a unique constraint. Having a ValueObject referencing other entities with a OneTo* association will fail if another instance of the valueobject intends to reference the same object: there will be a unique constraint error because the object occurrs twice then.

Maybe the Driver should make a ManyTo* out of these.

History

#1 - 2013-08-27 16:59 - Gerrit Code Review

- Status changed from New to Under Review

Patch set 1 for branch **master** has been pushed to the review server.
It is available at https://review.typo3.org/23367

#2 - 2014-02-13 11:23 - Adrian Föder

- Parent task set to #55953

#3 - 2014-02-28 10:40 - Adrian Föder

- Subject changed from Disallow OneToOne associations to ValueObjects to Fix OneTo associations from ValueObjects*

#4 - 2015-02-12 13:48 - Gerrit Code Review

Patch set 2 for branch **master** of project **Packages/TYPO3.Flow** has been pushed to the review server.
It is available at http://review.typo3.org/23367

#5 - 2015-02-12 14:26 - Adrian Föder

- Status changed from Under Review to Rejected

Abandoned, developes should just annotate it properly.
