

TYPO3.Flow - Feature # 5149

| | | | |
|---|---|---------------------|--------------------|
| Status: | Resolved | Priority: | Should have |
| Author: | Karsten Dambekalns | Category: | Persistence |
| Created: | 2009-10-27 | Assigned To: | Karsten Dambekalns |
| Updated: | 2010-10-20 | Due date: | |
| PHP Version: | | | |
| Has patch: | | | |
| Complexity: | | | |
| Subject: | Support counting objects in persistence queries | | |
| Description | | | |
| To count results currently something like this is needed: | | | |
| <pre>function findAllCount() { \$query = createQuery; \$videos = \$query->execute(); return count(\$videos); }</pre> | | | |
| We need something like: | | | |
| <pre>function findAllCount() { \$query = createQuery; return \$query->count(); }</pre> | | | |
| See #4991 for the original request on Extbase. | | | |

Revision 33c5457b - 2009-11-30 22:21 - Karsten Dambekalns

[+API] FLOW3 (Persistence): The QueryInterface now has a count() method for low-overhead counting of objects. Resolves #5149.

History
