[BUGFIX] Do not register storage factory slot during install

In install tool context TYPO3\_MODE is set to BE  
but there is no backend user initialized.  
Because of that the storage permission aspect  
fails as it requires a valid backend user object.

Do not register the slot when in install tool context.

Releases: 6.0, 6.1, 6.2

Resolves: #51733

Can you check if <https://review.typo3.org/23621> solves your problem?

Don't forget to clear the cache (typo3temp/Cache/) after applying the fix, as ext\_localconf.php files are cached.
