[TASK] RTE MagicImage should use FAL processing API

The RTE magic still copies images to the old upload folder and does not use the processed file functions of FAL.

This patch changes the RTE magic so storage 0 is not used any more and that the FAL API is used for processing the images.

Resolves: #51807

Releases: 6.2

- *File Uncaught_TYPO3_Exception_RTE_image.txt added*

Add RTE related exception from #51747

#5 - 2013-09-06 15:44 - Ernesto Baschny

- *Target version set to next-patchlevel*

This is a dupe of #51778, right, Helmut? Could we continue on the older one only?

#6 - 2013-09-06 16:05 - Helmut Hummel

OK, for anybody having problems with the current release, please try out this

<https://review.typo3.org/23660> (patch set 5)

It rolls back permission restrictions for storage 0 and should solve all problems with RTE and old extensions (like tt_news)

#7 - 2013-09-06 16:44 - Ernesto Baschny

- *Is Regression set to Yes*

#8 - 2013-09-06 16:44 - Ernesto Baschny

- *Category changed from 1394 to rtehtmlarea*

#9 - 2013-09-06 20:56 - Jürgen König

Thank you, this works for me. I can insert images in RTE again and open tx_news news.

The ResourceStorage.php does not work in this version. It throws the isMissing-Error mentioned in <http://forge.typo3.org/issues/51747>.

I used the original file and changed the three lines and it worked.

Thank you Thank you Thank you...

#10 - 2013-09-06 22:13 - Ernesto Baschny

- *Tracker changed from Bug to Task*

- *Subject changed from RTE Images do not work because exceptions are thrown to RTE MagicImage should use the FAL processing API and not*

storage-0

- Target version deleted (next-patchlevel)

The bug is already solved by #51808, but anyway we want to keep this open to rework rtehtmlarea to make proper use of the FAL API in future.

I changed the subject accordingly and made it a Task. I asked Stan if he could work on that.
