

Core - Bug # 52261

Status:	Closed	Priority:	Must have
Author:	Ernesto Baschny	Category:	Backend User Interface
Created:	2013-09-25	Assigned To:	
Updated:	2015-01-18	Due date:	
TYPO3 Version:	6.0		
PHP Version:			
Complexity:			
Is Regression:	No		
Sprint Focus:			
Subject:	Bad position of eval=>null checkbox		
Description			
<p>The new TCA feature "eval=>null" places a new checkbox as a wizard besides your input field. This seem to look "ok" in the sys_file_reference case (which uses the "useOrOverridePlaceholder" mode), but it looks ugly in case you have regular (non-palette) field:</p>			
			
<p>Also note that a potential "options-palette" icon is misplaced too.</p>			
<p>The checkbox must be placed nearer to the input field itself.</p>			

History
