

## TYPO3.Surf - Bug # 52276

<b>Status:</b>	New	<b>Priority:</b>	Should have
<b>Author:</b>	Thomas Allmer	<b>Category:</b>	
<b>Created:</b>	2013-09-25	<b>Assigned To:</b>	
<b>Updated:</b>	2013-09-25	<b>Due date:</b>	

**Subject:** Task defined in an Application can't be removed for a deployment?

### Description

```
<?php
$workflow = new \TYPO3\Surf\Domain\Model\SimpleWorkflow();
$deployment->setWorkflow($workflow);

$node = new \TYPO3\Surf\Domain\Model\Node(['...']);
$node->setHostname(['...']);
$node->setOption('username', ['...']);
$node->setOption('password', ['...']);

$application = new \TYPO3\Surf\Application\TYPO3\Neos();

$application->setDeploymentPath(['...']);
$application->setOption('repositoryUrl', ['...']);

$application->setOption('composerCommandPath', ''); //why is this needed?

$application->setOption('packageMethod', 'git');
$application->setOption('transferMethod', 'rsync');
$application->setOption('updateMethod', NULL);

$application->setOption('keepReleases', 2);
$application->addNode($node);

$deployment->addApplication($application);

// can't remove a task?
$deployment->getWorkflow()->removeTask('typo3.surf:typo3:neos:importsite');

?>
```

### History

#1 - 2013-09-25 18:25 - Thomas Allmer

ignore this

```
$application->setOption('composerCommandPath', ''); //why is this needed?
```
