Updated:	2013-10-05	**Due date:**	

Sprint:	
PHP Version:	
Has patch:	Yes
Complexity:	
Subject:	Throw Exception if there is an array in PSR-0 autoload

Description

It would be nice if TYPO3 Flow throws an Exception if there is an array in PSR-0 autoload in composer.json.

Example:

    "autoload": { "psr-0":{ "placeholder": ["src/", "src2/"] } },

Patch:

    if (is_array($this->getComposerManifest()->autoload->{'psr-0'}->{$this->getNamespace()})) {
        throw new \TYPO3\Flow\Package\Exception\InvalidPackageManifestException(sprintf('The autoload for package "%s" is an
    array. Please change it to string at "%scomposer.json".', $packageKey, $this->packagePath.$manifestPath), 1380172921);
    }
