Revision 9b381d47 - 2013-09-26 23:38 - Christian Kuhn

[TASK] Move configuration code from bootstrap to ext:install

Some methods in bootstrap silently change TYPO3_CONF_VARS to adapt some settings. Those methods are moved to the install tool as "silent upgrade" to write out configuration options. The silent upgrade code within StepController is extracted to an own class for better encapsulation.
