[BUGFIX] Configure main extbase caches for unlimited entry lifetime

The extbase reflection and object caches are "stable" cache entries and only need to be deleted if extensions change or are updates. The extension manager takes care of flushing in this case.

Currently, the default lifetime of those cache entries is only one hour, so they are recalculated pretty often. This is especially a problem if the site was not accessed for more than an hour, since tons of cache entries exceeded their lifetime and require recalculation.

The patch moves the cache configuration of the required extbase extension to DefaultConfiguration and sets unlimited default lifetime for object and reflection cache.

History

#1 - 2013-09-26 16:18 - Gerrit Code Review

- *Status changed from New to Under Review*

Patch set 1 for branch **master** has been pushed to the review server.

It is available at <https://review.typo3.org/24069>

#2 - 2013-09-26 16:32 - Sven Tappert

Does it solve #50231? Otherwise 50231 should be added as subtask to #52304 as well.

#3 - 2013-09-26 21:38 - Gerrit Code Review

Patch set 2 for branch **master** has been pushed to the review server.

It is available at <https://review.typo3.org/24069>

#4 - 2013-09-26 21:42 - Gerrit Code Review

Patch set 1 for branch **TYPO3_6-1** has been pushed to the review server.

It is available at <https://review.typo3.org/24081>

#5 - 2013-09-26 21:45 - Gerrit Code Review

Patch set 1 for branch **TYPO3_6-0** has been pushed to the review server.

It is available at <https://review.typo3.org/24082>

#6 - 2013-09-26 22:30 - Christian Kuhn
