

## TYPO3.Neos - Feature # 52462

<b>Status:</b>	New	<b>Priority:</b>	Should have
<b>Author:</b>	Soren Malling	<b>Category:</b>	
<b>Created:</b>	2013-10-02	<b>Assigned To:</b>	
<b>Updated:</b>	2013-11-10	<b>Due date:</b>	
<b>Subject:</b>	Include own UI elements to the inspector		
<b>Description</b>			
While working on			
<a href="http://forge.typo3.org/issues/47895#note-5">http://forge.typo3.org/issues/47895#note-5</a>			
I will like to add my own element to the righthand inspector - but at the moment it doesn't seem possible due to limitation in JavascriptConfigurationViewHelper			
<pre>\$resourcePath = 'resource://TYPO3.Neos/Public/JavaScript'; \$localizedResourcePathData = \$this-&gt;i18nService-&gt;getLocalizedFilename(\$resourcePath); \$matches = array(); if (preg_match('#resource://([^\s]+)/Public/(.*)#', current(\$localizedResourcePathData), \$matches) === 1) {     \$package = \$matches[1];     \$path = \$matches[2]; }</pre>			
I would like it to be possible to add my own with a configuration like this			
<pre>boolean:   editor: Content/Inspector/Editors/BooleanEditor taxonomy:   editor: resource://TYPO3.Neos.Taxonomy/Scripts/Content/Editor/TaxonomyEditor</pre>			
or maybe			
<pre>taxonomy:   package: 'TYPO3.Neos.Taxonomy'   editor: Content/Inspector/Editors/BooleanEditor</pre>			
Please comment and I will give my own first try
