

TYPO3.TYPO3CR - Bug # 52498

Status:	Accepted	Priority:	Should have
Author:	Tim Kandel	Category:	
Created:	2013-10-03	Assigned To:	Tim Kandel
Updated:	2013-10-03	Due date:	
Subject:	Pasting content into a collection keeps its original position		
Description			
If you copy some content and paste it into a collection it should actually be pasted at the beginning. Right now it is pasted at the same position it had before.			

History

- Status changed from New to Accepted

- Assigned To set to Tim Kandel

#3 - 2013-10-03 15:51 - Tim Kandel

Creating, Copy, Cut and Paste is generally inconsistent in it's placement.

Creating inserts as the first element, cut & paste as the last and copy and paste keeps the position.

No matter what action I take, the new element should always be the first in the content collection.
