

TYPO3.Neos - Feature # 52511

Status:	New	Priority:	Should have
Author:	Christoph Dähne	Category:	
Created:	2013-10-03	Assigned To:	
Updated:	2013-10-31	Due date:	
Subject:	More graceful degradation of broken content elements		
Description			
<p>Broken content elements can sometimes be removed, hidden, ... as they are normal content element, even if they cannot be rendered.</p> <p>Under some circumstances, e.g. if the content element is of a not-existing type, it cannot be removed yet. The wrapping of the content elements needs to be made more fault tolerant.</p> <p>Where to start:</p> <ul style="list-style-type: none">- See TODO in TYPO3\Neos\TypoScriptNeosRenderingExceptionHandler- Refactor, make more fault tolerant and maybe split to multiple functions <p>TYPO3\Neos\Service\ContentElementWrappingService->wrapContentObject</p> <p>Depends on https://review.typo3.org/#/c/24239/</p>			

History

#1 - 2013-10-31 13:06 - Christoph Dähne

Time has passed and source code has changed.

Where to start:

- See \TYPO3\Neos\TypoScript\ExceptionHandler\NodeWrappingHandler
- Refactor, make more fault tolerant and maybe split to multiple functions

TYPO3\Neos\Service\ContentElementWrappingService->wrapContentObject
