Created:	2013-10-04		**Assigned To:**	
Updated:	2014-05-05		**Due date:**	
TYPO3 Version:	6.0			
PHP Version:				
Complexity:	medium			
Is Regression:	No			
Sprint Focus:				
Subject:	ExtensionManagementUtility::addToAllTCAtypes() doesn't add field because of match on substring			

Description

If you have a field 'great_categories' you can't add another field on the same table with addToAllTCAtypes() with a name of 'categories' as this field is considerd existing in the routine. this is most likely happening due to the use of

    strpos($typeDetails['showitem'], $str) !== FALSE

Revision 30f2ba08 - 2014-05-05 18:17 - Christian Kuhn

[TASK] Tests: Refactor and activate dbal tests

Our unit test environment is finally ready to execute existing dbal
unit tests, even if no database connection exists.

The patch refactors unit tests of ext:dbal, modernizes their codebase
and adds them to the build.

Resolves: #52527
Related: #51436
Releases: 6.2

History

#1 - 2013-10-04 11:06 - Peter Niederlag

```
$tmpField1 = array (
   'fancy_field_test' => array(
      'exclude' => 0,
      'label' => 'first working test',
      'config' => array(
         'type' => 'input',
         'size' => 30,
         'eval' => 'trim,required'
      )
   )
);
$tmpField2 = array (
   'test' => array(
      'exclude' => 0,
      'label' => 'second (failing) test',
      'config' => array(
         'type' => 'input',
         'size' => 30,
         'eval' => 'trim,required'
      )
   )
);
\TYPO3\CMS\Core\Utility\ExtensionManagementUtility::addTCAcolumns('pages', $tmpField1);
\TYPO3\CMS\Core\Utility\ExtensionManagementUtility::addToAllTCATypes('pages', 'fancy_field_test');
\TYPO3\CMS\Core\Utility\ExtensionManagementUtility::addTCAcolumns('pages',$tmpField2);
\TYPO3\CMS\Core\Utility\ExtensionManagementUtility::addToAllTCATypes('pages', 'test');
```

tmpField2 won't show up :(

'test' is part of 'fancy_field_test'

reversing the registration order would fix it

#2 - 2013-10-05 12:19 - Philipp Gampe

- Status changed from New to Accepted

- Priority changed from Should have to Must have

- TYPO3 Version changed from 6.2 to 6.0

- Complexity set to medium

Should go to all 6.x versions I guess (and maybe even to 4.5).

Can you work on a patch (and put the example into a unit test)? This would be great.
