DEV3 - Feature # 527

Status:	Accepted	**Priority:**	Should have
Author:	Peter Kraume	**Category:**	TYPO3 4.x TypoScript Editor
Created:	2008-05-13	**Assigned To:**	Sebastian Böttger
Updated:	2010-10-20	**Due date:**	
Subject:	Serveral ideas for connectivity		

Description

  - connector to database   * webservice to make the template available to eclipse   * integrate filesystem ??   * webdav (meta_ftpd)   * maja_junction

Feature Requests from T3DD08

History

#1 - 2008-07-10 08:59 - Sebastian Böttger

- Status changed from New to Accepted

- % Done changed from 0 to 20

Integrating the filesystem can be done by the eclipse plugin TM (Target Management)

#2 - 2008-07-15 15:19 - David Bruehlmeier

- Category changed from TypoScript 2.0 Editor to TYPO3 4.x TypoScript Editor

#3 - 2008-10-30 21:03 - Michael Bakonyi

Maybe this could be helpful for you guys, I don't know: In JEdit (jedit.org) there is a plugin available for TYPO3, which enables the possiblity to directly access the Typoscript-templates via the external editor. You need to install the extension "jeditvfs" in the TYPO3-installation which requires the xmlrpc_lib-extension if I'm the right position. For JEdit you need the plugin "Typoscript". Sometimes it worked very well for me but often I couldn't access the T3-installation due to a bug, I think. But as JEdit/ the plugin is written in Java, too, maybe you could check the extensions/ the plugin and/or contact the author.

Anyways: great project! I'll spend some money I don't have. :-)

Michael
