

Core - Task # 53122

Epic # 47018 (Resolved): Implement Composer support and clean package manager API

Status:	Closed	Priority:	Should have
Author:	Alexander Stehlik	Category:	
Created:	2013-10-25	Assigned To:	
Updated:	2014-06-20	Due date:	
TYPO3 Version:	6.2		
PHP Version:	5.4		
Complexity:	no-brainer		
Sprint Focus:			
Subject:	Use package manager in impexp extension selector		
Description			
The extension selector currently causes PHP warnings because it uses the old \$TYPO3_LOADED_EXT array in an invalid way (e.g. array_keys() is used).			
Code can simply be replaced with calls to the PackageManager.
