

TYPO3.Neos - Bug # 53258

Status:	Resolved	Priority:	Should have
Author:	Benjamin Albrecht	Category:	TypoScript
Created:	2013-10-31	Assigned To:	Bastian Waidelich
Updated:	2013-11-01	Due date:	
Subject:	rendering of internal links doesn't work		
Description			
<p>Hi,</p> <p>the rendering of internal links in text (new feature of alpha7) doesn't work with php 5.3.27 on my mac.</p> <p>The problem seems to be a call to a protected method in class "ConvertNodeUriImplementation".</p> <p>Line 82:</p> <pre>\$self = \$this; return preg_replace_callback(self::PATTERN_NODE_URIS, function(array \$matches) use (\$self, \$node) { return \$self->convertNodeIdentifierToUri(\$matches[1], \$node); }, \$text);</pre> <p>The method "convertNodeIdentifierToUri()" is a protected method of class "ConvertNodeUriImplementation".</p> <p>AFAIK the call of protected methods inside of an anonymous function is not allowed with php 5.3.</p> <p>After changing the method "convertNodeIdentifierToUri()" from protected to public the rendering works fine...</p>

Revision 3bdb2f2 - 2013-11-01 16:06 - Bastian Waidelich

[BUGFIX] Fix Rendering of internal links for PHP < 5.4

The ``ConvertNodeUri`` TypoScript implementation calls a protected method from within a closure which is only supported with PHP 5.4+.

This change fixes this by making the respective method public.
It also adds unit tests for ``ConvertNodeUriImplementation``.
