TYPO3.Flow - Bug # 53262

Status:	New	**Priority:**	Should have
Author:	Dominique Feyer	**Category:**	Cache
Created:	2013-11-01	**Assigned To:**	Dominique Feyer
Updated:	2013-11-01	**Due date:**	

PHP Version:	
Has patch:	Yes
Complexity:	
Affected Flow version:	(any)
Subject:	FileBakend have some race condition

Description

One of the problem is that get() can be called before the file is available, so we need multiple try of file_get_contents like we have in set() for the rename. In the patch, I add a usleep, really short, to increase the wait time a bit between each try.

[TASK] Add support for file locking in (Simple)FileBackend

With concurrent access the current FileBackend and SimpleFileBackend can
be racy, this patch adds a strict file locking when writing and shared
locking when ready to avoid this problem.
