Subject:	'window.webkitStorageInfo' is deprecated (ContentModule-built.js:299)		

Description
Following warning appears inside Google Chrome (30.0.1599.101) on Mavericks. 'window.webkitStorageInfo' is deprecated. Please use 'navigator.webkitTemporaryStorage' or 'navigator.webkitPersistentStorage' instead. (ContentModule-built.js:299) The Chrome team [updated the Quota API Code](#) to match the *[W3C spec](#)*   *We'll keep supporting the old API (with a deprecation message) and we have sometime before the change actually hits stable, but wanted to give a heads-up that the documentation needs to be updated.*   So maybe Neos should also use the new API.
