

## Base Distribution - Task # 53272

<b>Status:</b>	New	<b>Priority:</b>	Could have
<b>Author:</b>	Marcin Sagol	<b>Category:</b>	Global User Interface
<b>Created:</b>	2013-11-01	<b>Assigned To:</b>	
<b>Updated:</b>	2013-11-01	<b>Due date:</b>	
<b>Subject:</b>	Animated icon when saving/publishing changes		
<b>Description</b>			
<p>When user works on page and do some changes before they are applied he has to save and publish them. When button APPLY or PUBLISH is pressed the indicator shows text Saving ... prepanded with icon. I think it would be a good idea to make this icon animated like loader/preloader so it suggest user that something happens in the background (changes are saved). Such visual way would be much better than simple text 'Saving ..'.</p> <p>I'm interested what are your opinions.</p>
