

Core - Bug # 53275

Status:	Closed	Priority:	Should have
Author:	Sten _	Category:	
Created:	2013-11-01	Assigned To:	
Updated:	2013-11-01	Due date:	
TYPO3 Version:	6.2		
PHP Version:			
Complexity:			
Is Regression:	No		
Sprint Focus:			
Subject:	Import of 4.* t3d exports to 6.* typo3: files do not work		
Description			
<p>As many others, I took the opportunity to do a clean move of the page data from 4.5 LTS to a 6.2 beta.</p> <p>Importing of 4.* t3d forks so far, except if file are attached (an image in my usecase).</p> <p>I get the following error:</p> <p>#1300086584: uid of fileusage (sys_file_reference) has to be numeric. (More information)</p> <p>InvalidArgumentException thrown in file /home/sten/genoveva2_server/typo3_src-6.2.0beta1/typo3/sysext/core/Classes/Resource/ResourceFactory.php in line 548.</p> <p>The stacktrace is here:</p> <p>http://pastebin.com/Htfe1rjF</p> <p>A clean import would be a great feature, since I am surely not the only one to do imports and exports between different LTS versions.</p> <p>Best Reagrds</p>
