Subject:	Typo in Sites Management > New Site		
Description			
When creating a new site in Sites Management it says:			
A valid package key should be in the form VendorName.MyPackageKey./span>			
Note the "span" at the end?			
Or in HTML source code:			
A valid package key should be in the form VendorName.MyPackageKey./span>			
Just a very little "bug", which could be fixed fast imho ;)
