Subject:	CSS - Misplaced .neos-inspector-image-width/height checkmarks		

Description

The checkmarks for the width, respectively the height, of a choosen image are misplaced in Firefox (at least v25.0).

Fix:

A position:relative; is needed for the checkmark container div (.neos-input-prepend neos-input-append).

Hence adding the position:relative; to the rule .neos #neos-inspector .neos-inspector-form .neos-input-prepend, .neos #neos-inspector .neos-inspector-form .neos-input-append (*Includes-built.css, Line 6490*) for Beta 1 of Neos should fix it.
