<b>Subject:</b>	[team4] Use ExtJS in fileadmin		
<b>Description</b> Different operations in fileadmin could be done easier using ExtJS - e.g.: <ul style="list-style-type: none"><li>- Rename files (double click on file results in an inline-edit-field)</li><li>- Create files/folders (PopUp or single click creates unnamed file in list and rename is done as mentioned above)</li><li>- Edit files (PopUp)</li></ul> related to #5324, #5325, ... (search for subject contains "[team4]")
