Revision 71eb69ed - 2014-02-01 09:05 - Steffen Ritter

[TASK] Remove fallback for not-indexed files

Due to all the refactorings all file-objects are created centralized. In addition it is not possible anymore to create a file object without an existing index record. Therefore all the fallback-logic for lazy loading the index record can be removed from the file object.

In addition the unit tests for these parts of the file object have been removed, too.

Releases: 6.2

Resolves: #53691
