TYPO3.Neos - Bug # 53703

Status:	Closed	**Priority:**	Should have
Author:	Alexander Schnitzler	**Category:**	
Created:	2013-11-16	**Assigned To:**	Bastian Waidelich
Updated:	2013-11-18	**Due date:**	
Subject:	Creating links just works for absolute urls		

Description

Don't know if this should work already but imho it's not possible to link to something different than an absolute url. I would like to link to one of my pages, how do I do this?

Working on master, some commits after beta1.
