Faceted Search - Bug # 54081

Status:	Resolved	**Priority:**	Should have
Author:	Bjoern Jacob	**Category:**	
Created:	2013-11-29	**Assigned To:**	
Updated:	2013-12-09	**Due date:**	
Subject:	Compatibility with TYPO3 CMS 6.2		

Description

Hi there,

we've installed ke_search on a fresh TYPO3 CMS 6.2beta2. When opening the search result page (including the search form and the search result list) you get the following PHP error:

Fatal error: require_once() [function.require]: Failed opening required '/typo3/sysext/cms/tslib/class.tslib_pibase.php' (include_path='/typo3/contrib/pear/:.:/usr/local/lib/php') in /typo3conf/ext/ke_search/lib/class.tx_kesearch_lib.php on line 25)

Since we've got 2 projects started on 6.2 we'll try to supply a patch for.

History

#1 - 2013-12-02 13:17 - Ralf Zimmermann

- File patch.diff added

After removing the require_once calls with PATH_tslib, ke_seatch seems to be working with TYPO3 6.2beta2 in frontend and backend.

The patch provides a version check. If the TYPO3 Version is smaller than 6.2, we perform the require_once calls.

#2 - 2013-12-09 14:18 - Christian Buelter

- Status changed from New to Resolved

Patch applied in slightly different form. Has already been released to TER as version 1.6.0.
