

Core - Bug # 54122

Status:	Closed	Priority:	Must have		
Author:	André Spindler	Category:	rtehtmlarea		
Created:	2013-12-01	Assigned To:			
Updated:	2013-12-03	Due date:			
TYPO3 Version:	4.5				
PHP Version:	5.4				
Complexity:					
Is Regression:	No				
Sprint Focus:					
Subject:	No RTE in IE11				
Description					
<p>If You open any record in TCE with enable RTE, the RTE is not loaded. You get just an textarea field with the compiled HTML code as content.</p> <p>Might be caused by the new format of the useragent string?</p> <p>Affected are at least versions 6.1 and 4.5, perhaps also 4.7, 6.0 and 6.2.</p>

- Status changed from New to Accepted
- TYPO3 Version changed from 6.1 to 4.5

#3 - 2013-12-01 15:48 - Stefan Neufeind

From reading the source I guess this should work when ClientUtility correctly detects "msie". For general IE11-detection-support see #54124.

#4 - 2013-12-02 12:10 - Stefan Neufeind

Markus confirmed in #54124 that the patch there (IE11-detection) also brings back the RTE in MSIE11. Please give the patch over there a try.

#5 - 2013-12-02 13:55 - André Spindler

Patch in #54124 works for me, too.

RTE is back in 6.1 with IE11.

Also added patch manually to 4.5.31 and it works also there.

Thanks!
