TYPO3.Neos - Bug # 54222

Status:	Closed	**Priority:**	Should have
Author:	Christopher Hlubek	**Category:**	
Created:	2013-12-06	**Assigned To:**	
Updated:	2014-10-01	**Due date:**	
Subject:	No user readable error message for missing database		
Description			

If a database is configured but not existing a request to the frontend causes a cryptic stacktrace:

Uncaught Exception in Flow
#1297759968: Exception while property mapping for target type "TYPO3\TYPO3CR\Domain\Model\Node", at property path "":
The database which was specified in the configuration does not exist.
More information

TYPO3\Flow\Property\Exception thrown in file
/Users/hlubek/Dev/Neos/TYPO3-Neos-master/Data/Temporary/Development/Cache/Code/Flow_Object_Classes/TYPO3_Flow_Property_
_Property_PropertyMapper.php in line 119.
Reference code: 20131206112950f5b241

Nested Exception
#1049: The database which was specified in the configuration does not exist.
More information

TYPO3\Flow\Persistence\Doctrine\Exception\DatabaseConnectionException thrown in file
/Users/hlubek/Dev/Neos/TYPO3-Neos-master/Data/Temporary/Development/Cache/Code/Flow_Object_Classes/TYPO3_Flow_Persistenc
_Persistence_Doctrine_Query.php in line 159.
Reference code: 201312061129503b3954

Go to the FORGE issue tracker and report the issue - if you think it is a bug!

It seems to be caused by the property mapping nesting the underlying DatabaseException which won't be displayed using a nice
exception handler then.

History

#1 - 2014-10-01 22:02 - Jonas Renggli

- File Screenshot 2014-10-01 22.01.41.png added

- Status changed from New to Closed

In Neos 1.1 a beautiful error message will be shown

Database Error

Sorry, we detected an error with your database. Check your logfiles in Data/Logs/* for more information.

You might want to configure or check your database configuration in the setup.
