

TYPO3.Neos - Bug # 54356

Status:	Closed	Priority:	Should have
Author:	Thorsten Vallender	Category:	
Created:	2013-12-12	Assigned To:	
Updated:	2014-10-01	Due date:	
Subject:	content element "text and image" and "image" is not working properly		
Description			
Hallo,			
it is not possible to change or modify a picture in a content element "image" & "text and image" over the "Thumbnails View". The Inspector ist waiting ... and waiting ...			
If I use the "List View" change or modify a picture, then it works fine.

Thanks for creating the ticket. This is indeed a bug.

#2 - 2014-01-16 16:31 - Bernhard Schmitt

It's actually just a template issue in the Media package. JavaScript searches for the "data-asset-identifier" attribute in the respective element classed as "asset".

In list view this is

```
<tr class="asset draggable-asset" data-asset-identifier="{asset -> f:format.identifier()}">
```

and in thumbnail view

```
<li class="asset">
```

Adding `data-asset-identifier="{asset -> f:format.identifier()}"` to the li element solves this issue

#3 - 2014-01-18 16:49 - Riccardo De Contardi

That's inside

```
Packages/Applications/TYPO3.Media/Resources/Private/Partials/ThumbnailView.html
```

right?

#4 - 2014-01-20 16:48 - Bernhard Schmitt

exactly

#5 - 2014-10-01 19:23 - Jonas Renggli

- Status changed from Accepted to Closed

Can't reproduce under Neos 1.1

If the problem still exists please open an issue on <https://jira.typo3.org/>
