Subject:	Secondary inspector width in Firefox (Media view)		
Description			
<p>The width of the secondary inspector is not calculated correctly in Firefox. This leads to the tags sidebar not showing up in the Media view.</p> <p>Solution: change 'box-sizing' in '_SecondaryInspector.scss' from:</p> <pre>box-sizing: border-box;</pre> <p>to:</p> <pre>@include box-sizing(border-box);</pre> <p>Maybe check for other occurrences of 'box-sizing' that still need some browser vendor prefixes.</p>
