Subject: Fatal error after login

Description

On log in to the backend -after successful installation and setup - I got a Fatal error.

Login user and password were accepted,
after being redirected to /user-myuser I get the following error

Fatal error: Call to a member function getHash() on a non-object in
/var/www/TYPO3-Neos/Data/Temporary/Production/Cache/Code/Flow_Object_Classes/TYPO3_Media_Domain_Service_ImageService.php on line 54

My system:

ubuntu 12.04

PHP 5.3.10-1ubuntu3.9

MySQL Server 5.5.34-0ubuntu0.12.04.1

Apache/2.2.22 (Ubuntu)

History

#1 - 2013-12-20 15:26 - Salfa mi

I had a similar error on a very similar system. Just clearing the cache one time directly after the complete setup did it for me. ("./flow flow:cache:flush --force" in your Flow directory.)

#2 - 2014-10-02 12:50 - Philipp Hanebrink

- Status changed from New to Closed

Could not be reproduced on an ubuntu system with Neos version 1.1.

If this is still in issue for you please open a new ticket on <https://jira.typo3.org/>
